

NORDICLIGHTS 

VELA LED

N2201BLUE

VELA LED

N2201BLUE

A focussed blue light for improved safety in industrial environments.

For use as a reliable optical early warning of approaching vehicles, for example, in warehouses.

Specifically suitable for fork lift trucks due to its isolated integrated electronics.

NORDICLIGHTS

ADVANTAGES

VELA LED

N2201BLUE

Operators appreciate being able to identify the direction & speed of other forklifts.

Pedestrians receive advanced warning of coming hazards.

Management welcome the cost effective improvement in workplace safety.

The LED lamp ...

... provides excellent contrast to the flooring for optimum clarity & visibility.

... is not disruptive or disturbing like acoustic warning systems.

... has a very long service life & low operating temperature.

... is unaffected by elevated vibrations or shocks.

... provides high brightness with low power consumption.

TECHNICAL SUMMARY

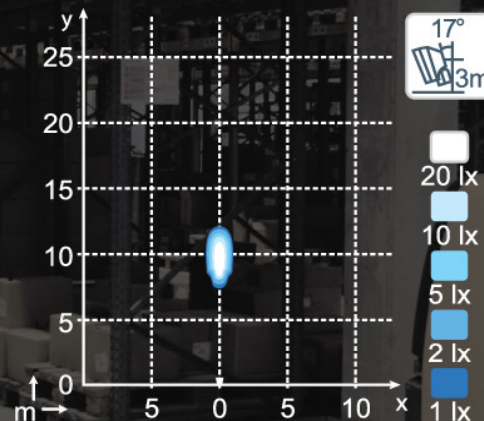

VELA LED

N2201BLUE

Nominal Voltage DC:	12-48V
Power Consumption:	16W
Connector:	Built-in Deutsch 2-pin
Mount:	Single bolt M8
Ambient Temperature Range:	-40°C... +50°C
Max. Ambient Temperature:	+85°C (Overheat protected)
Water & Dust Proof:	Yes
Vibration & Shock Resistant:	Yes
Fully EMC compliant:	Yes

Light pattern N2201:
